

Firestore Dashboard Schema Guide

Project Database: dashmesh-mechanix-dev | Path: /home_data/dashboard

Overview

This document describes the exact schema, keys, and data types expected by the Dashmeshro Flutter application's Home Page. The app listens to real-time changes on the Firestore document at path '/home_data/dashboard'. Modifying this document in the Firebase Console will immediately update the UI on all connected client devices.

1. Root Level Fields

Field Name	Type	Example Value	Description
newSells	number (int)	14	Number of new sells this week
activeRentals	number (int)	32	Number of active rentals in portfolio
activeAmcs	number (int)	128	Number of active AMC contracts
resolutionRatePercent	number (int)	94	Complaint resolution percentage
pendingComplaintsCount	number (int)	6	Number of pending complaints
todaySellsSummary	number (int)	4	Sales metrics for today
weekSellsSummary	number (int)	14	Sales metrics for the current week
projectedGrowth	string	" +12% vs LW"	Projected growth percentage text

2. Array (List) Fields

A. todaySchedules (Array of Maps)

Represents the tasks or checkups listed under 'Today's Service Schedule'.

Key Name	Type	Description / Format
title	string	The service details (e.g., "Leakage Issue - Terminal 4")
subtitle	string	Details of assignment (e.g., "Assigned to: Senior Mech Team")
time	string	Time slot (e.g., "09:30 AM")
isUrgent	boolean	Renders red with priority indicator if true, green check if false

B. pendingComplaints (Array of Maps)

Represents customer complaints listed under 'Pending Complaints'.

Key Name	Type	Description / Format
customerName	string	The customer company/person (e.g., "Apex Manufacturing")
customerId	string	Reference code (e.g., "MCP-001")
issueType	string	Short summary of the bug/leak (e.g., "Low Flow Rate")
status	string	Priority level (use "urgent", "high", or "normal")

C. amcProgresses (Array of Maps)

Represents the active AMC status under 'Active AMC Focus'.

Firebase Firestore Dashboard Schema Guide

Project Database: dashmesh-mechanix-dev | Path: /home_data/dashboard

Key Name	Type	Description / Format
companyName	string	Customer or building name (e.g., "Industrial Hub Corp")
progress	number (float)	Value between 0.0 and 1.0 (e.g., 0.85 representing 85% progress)
statusText	string	Ongoing checkup message (e.g., "Almost to onboarding")
isUrgent	boolean	Shows "Renew" badge if true, "On Track" badge if false
